Editorial

As we embark on another 365-day journey, RHK is truly grateful to share another year with our readers, fans, models, photographers, and everyone else who continues to support us.

2020 was filled with plenty of memories ... some good, some bad ... but memories nonetheless! The main takeaway from 2020, at least for me personally, was to count my blessings. Be grateful. Savor the moment. Breathe. Look for the positives in every situation. And hopefully I was able to convey that message to everyone I had an opportunity to work with. Even though we faced small obstacles and challenges, we had (and have) so much to be thankful for ... and a better day is always on the horizon!

With all of the challenges we faced in 2020, we were still able to continue our operations without interruption ... and had another great year! We released exclusive content every month, with over 25 all-new issues. We worked with new featured models, while some of our previously featured models returned with even hotter content!

All in all ... last year was a huge success!

In 2021, we hope to get back on our promo-tours, which give us the opportunity to meet and discover the world's hottest models. And, as always, our goal is to deliver the best magazines and products we possibly can ... our readers and fans deserve nothing but the best!

Again, thank you for everything ...

I greatly appreciate YOU!

How to Take a Stress-Free Holiday Road Trip

Holiday travel can be stressful, but it should be fun, too. Advance planning and proper car care can take much of the stress out of a holiday road trip and leaving you free to enjoy the ride.

Checklists for each aspect of the trip will help ensure that nothing important is left behind, and that you are safe and prepared in case of an emergency. When it's time for a holiday road trip, keep these tips in mind for smooth travels:

Check your ride: A complete car check before a road trip should include making sure the fluid levels are sufficient. Make sure wiper blades and the wiper mechanism itself is working properly. Check your lights, including brights, to be sure they are functional. And, last but not least, don't forget your tires. Tires are the connection between your car and the road, so be sure to examine the tread for signs of excess wear.

"Traction and tread are inextricably linked. The grooves in your tires are critical in helping to channel water away to allow the tire to grip the road," says Sarah Robinson, Michelin safety expert. "Making sure you're driving on tires with proper tread can be the difference between avoiding an accident and becoming part of it."

Be prepared: Equip your car with an emergency kit, including water, flashlight, blanket, jumper cables, extra windshield wiper fluid, cell phone charger, and emergency phone numbers for roadside assistance, as well as a contact person at your destination.

Map your route: Check your route in advance and, if possible, plan your trip for times with less traffic. If you are planning to use a map feature on your phone, use the voice component; if you don't have that, consult a paper map and get a sense of the route before you get behind the wheel.

Safety first: That means the driver focuses on driving. If you are the driver and need to check your phone, send a message, have a snack, or tend to a child or pet in the back seat, wait for a rest stop, or if necessary, pull over to the side of the road.

Watch the weather: Especially during winter holidays, knowing the weather in advance can help you plan to avoid a storm. If conditions are truly dangerous, the smart move is to postpone your trip until the weather improves.

Being 26, I have been in college for a very long time … I have graduated but modeling had always been a passion of mine. And while deciding what I really wanted to do with the rest of my life, I thought to myself in 2019, “Why not try?” Full time student and model, I have a lot of help. I’m extremely close to my family, they have supported me in all my endeavors.
I enjoy doing Yoga, staying healthy and fit, and taking care of body. My next step is to continue my career in modeling and take on every opportunity I am given.

Short-term goals for my modeling career would be to continue having fun doing what I live and continue to be featured in every opportunity I am offered. Getting my modeling portfolio and style out into the public eye is very important to me. Long-term GoaIs for my career, I would like it to be a secondary career to Nursing for me for the next 5 years, or longer hopefully, and eventually be featured on more than 10 different covers for different Magazines. But so far, a lot of goals that I didn't even know I had have been coming true, just in the last 26 months.

I believe my sexiest feature is my hair. Everyone always asks me if I have a hair piece in or hair extensions, and the answer is no, I never do. My hair is super thick naturally and I am blessed to have it! But I do get a lot of compliments on my butt and my legs.

I grew up in Maine and have an identical twin sister, who I share the love for music and art with. We were both in the top 10 of our High School class academically and were a part of the National Honors Society. I have been performing music for many years, my sister on the guitar and myself on the piano/synth or drum set. Through our music we tell our story of how we fought bullying in our past years and we use it to help others. It's important for us to spread a positive message and share our experiences to hopefully inspire others to put bullying to an end.

I am also a licensed Cosmetologist, the Makeup Artist/ Stylist for Light Works Studio, and a passionate model who loves fashion and sexy glamour! Since my last feature in an RHK Empire publication, I have done a wide variety of commercial and promotional work, plus have been a featured model at workshops for LWS. I am happy that I was given the opportunity to be a part of RHK Magazine ... special thanks to Rick Trottier and Alex Deal! Xoxo
